# Why do I have to repeat myself? Paintball guns don't count!

Here we go [again](#). Instead of going to a hobby shop and **asking a shop attendant** (facepalm) if a paintball gun will work for self defense, this moron decided to test it live.

I don't know if he was a security guard (in shorts? Unlikely), or why the fuck he was in the middle of a protest in South Africa with only a paintball gun (in shorts!). All I know is the video starts with this guy confronting recreational-rioters protesters with, wait for it ... a paintball gun.

As you *might* be able to tell from the video, it didn't go so well for him.

I don't know who gave him the idea that a paintball gun would somehow stop people from stomping his head in. But I suppose that's what you get for asking self defense advice from a minimum wage shop attendant who knows nothing besides a desire to make a sale.

You know what does work? [Not going to stupid places with stupid people and doing stupid things at stupid times of day.](#)

He also could've done with a bit of [cardio](#).
